Belwith Products, LLC Announces Its Keeler Division is Introducing a New Line of Architectural Locks Utilizing a Self-Aligning Assembly System

GRANDVILLE, Mich.--(BUSINESS WIRE)--Belwith Products, LLC ("Belwith"), a designer and manufacturer of kitchen, bathroom and door hardware located in Grandville, Michigan, via its Keeler™ Division, is introducing a new line of architectural locks with new designs, new finishes and new metal substrates while utilizing an innovative and proprietary self-aligning assembly system. Keeler™ locksets use SecuRemote™ technology that allows activation through smartphones.

Belwith® Products, the leader in design and finish in the decorative cabinet, door and furniture hardware industry, is now developing a host of new products and merchandising solutions through its strategic initiative to provide continuous innovation to its customer base.

For detailed information regarding Belwith or the new Keeler™ product line, please contact Jay Dauksas at the following contact information:
